

THE DEMOCRAT.

"DEMOCRATIC AND FRANK; DEVOTED TO NO-CLIQUE, AND
BOUND TO NO MASTER."

NEW PHILADELPHIA, OHIO.

September 1, 1842.

FOR GOVERNOR.
WILSON SHANNON.

DAILY OHIO STATESMAN.—The proprietor of the Ohio Statesman will publish a daily Statesman until the middle of October. Persons who wish, can have that sterling democratic paper, for \$1.00, by giving their names in at this office.

OLD DEMOCRATIC WARREN IN THE FIELD.

We publish in another column the resolutions and address of the Democracy of Warren township. The traitors meet with as little mercy there as any where else. We are glad to see the Democracy of this county bucking on their armor. This is no time to remain inactive. If the Arnolds and Hulls are not expelled from the State, government will be at an end.

DOVER TP. REBUKING THE TRAITORS.

The Democracy of Dover township had one of the largest democratic meetings on Saturday, that was ever held in that place. The proceedings are in another column; their resolutions are of the right stamp, and speak the sentiments of men who love their country and her institutions—who will if necessary waste in blood to rescue the Constitution from the foul grasp of the domestic traitors now in our borders.

Speeches were made by Messrs. Collier, and Craig, who showed up the base conduct of the whig disorganizers, their hypocrisy on the apportionment bill, & the consequences that must ensue from the defeat of the Bank bill, the apportionment law, and the bill to provide means to pay the hands on the public works. In stating the sufferings of the laborers on the public works Mr. Marsh, a Superintendent on the Ohio canal, was called upon for information. He stated that out of several thousand dollars, coming to him and his hands, from the State, they had received but a few hundred dollars—that he now has several hands sick on his boat, and can neither get their dues, nor provide the comforts of life for them—and that in consequence, they are unable to get to their homes, or get well. A contractor on the public works in the south western part of the State, was also present, and detailed the sufferings in his region.

Will not the people rise and put down the base party leaders who have brought distress to every poor man's door? Are not such men more deserving of cells in the penitentiary, than seats in the Legislature?

COUNTY CONVENTION.

On Saturday next, the Democrats of Tuscarawas, are called together to select a candidate for Representative, one for county Auditor, one for Recorder, one for Commissioner, one for Surveyor, and one for Coroner. In making the nominations, we cannot too strongly impress upon the minds of the delegates the importance of selecting men in whom the people have confidence, and who will draw to their support the whole democratic party. Give us a bad ticket, and we will not only be beaten in the county offices, but may be the means of defeating Shannon also. Give us a good ticket, one which will call out the united forces of the Democracy, and old Tuscarawas may have the glory of placing the honored Shannon in the Executive Chair.

PIPE LAYERS COMING.

The whig leaders of Ohio, frightened at the course of Corwin and his traitors, are determined to carry the election if they have to resort to all the acts of villany by which they carried it in 1840. Then they pipe layed from Kentucky, and imported votes. Now they are about to do it again to cover up treason. Let the democracy prepare for battle, for everything dear or sacred is at stake.

A coon meeting was held in Butler county a few days ago, at which Speakers from Kentucky officiated, the same drunken rowdies who imposed upon the people in pipe laying times. Clay has been invited, and Crittenden is to be at Chillicothe in a week or two. And the whig paper of Columbus contains an invitation from the Whig State Central Committee, to the whigs of Kentucky, to come up to a barbecue at Dayton, on the 29th September. Thus, the arrangements are making to bring in thousands of voters to Ohio, a few days before the election, to vote the whig ticket. Is it any wonder that men who uphold treason, would trample on the right of suffrage, by committing frauds upon the ballot box? Not they would stoop to any thing to accomplish their desperate purposes. Next week we shall publish an excellent article on this subject, together with testimony showing the extent of the frauds committed in Ohio, in 1840, by pipe laying.

The Federal sheet here, treats the conspiracy of the whig legislators, as a joke. We apprehend it is to the editor a joke, but do the moral, reflecting part of community think it a joke, when they look at the dangerous results that must follow if the precedent set by the traitors be followed up?

Suppose the whigs get the ascendancy next winter, and just as they are going to elect Tom Ewing to the U. S. Senate, the democratic minority should break up the legislature, would this editor think it a joke?

Do the poor laborers on our Canal, (some of whom are lying sick within a few miles of this place,) who have not been paid for months, think it a joke to break up the Legislature, when a bill was pending for their relief?

Do the hundreds of poor debtors who have had their property wrenched from them, and sold for a mere song, think it a joke, for the whig traitors to defeat the apportionment law, which was intended to protect their property?

Do the thousands who have been suffering for want of a currency, think it a joke for the whigs to defeat the bill rechartering the specie paying banks?

However much this apologist of the perjured traitors may think it was a joke to overthrow the State government, the second Tuesday of October, will convince him that it was carrying the joke too far.

It is said Tom Corwin will be here in a few days. Stir up the coons. What will those whigs say now, who were so opposed to Governors tramping over the State, begging votes?

General Murphy, late the whig orator of the West, but now Tyler man, is expected here shortly. He draws pictures of Clay Whiggery to life, free gratis, for nothing.

The Treaty settling all the questions of dispute between this government and England, has been ratified by the Senate, and sent to England. Webster and Lord Ashburton, fixed it up. Pure water cannot come from an impure fountain.

DEMOCRATIC MEETING.

Pursuant to previous notice, one of the largest meetings of the Democracy of Dover township, convened at the School House in Canal Dover, on Saturday the 27th of August, and organized by calling JOHN MOSLEY to the Chair, and appointing H. TORREY, Secretary.

The object of the meeting having been stated, on motion it was Resolved, that the committee previously appointed to prepare a preamble and resolutions, for the consideration of this meeting, make their report.

The committee reported the following preamble and resolutions, which were unanimously adopted:

WHEREAS, In these turbulent and revolutionary times, it becomes every lover of his country to arm himself for the struggle against the mongrel crew of Hartford Conventionists, Blue Light Federalists, and many other equally odious compacts, together with the 41 outlaws of the present Legislature, who have in the grossest manner trampled upon our sacred Constitution, and presented before the American people a truly dangerous precedent that the Majority must yield to the designing minority, and thereby make it practicable at any moment when conspiracy is rife in the land, to overthrow our sacred republic, and establish anarchy in its stead. And whereas, since the glorious days of '40, when by humbuggery and debsuchery, the minds of the American people were enslaved, and the beauties of Whiggery were presented in the mystical forms of a coon skin, cider barrel, and log cabin, pipe laying, has become unfashionable from the circumstance that the iron laws of the penitentiary have a strong predilection for these accursed hirelings, and thus base leaders; And whereas, the 41 recusants of the present legislature, becoming disorganizers and the contemptible tools of a thing of silver dirk memory at Columbus, have insulted the cries of the laboring men on our public works, when a bill was pending for their relief, and have been instruments in wresting from poor men the privilege of securing their property from a heavy sacrifice under execution. And whereas, many other important bills were pending, one of which was the districting bill, in which the Democracy allowed the whig minority 14 out of the 21 districts, taking the results of the coon skin campaign as a test, and still they were dissatisfied, for they could contrast their deceptive state of things with their actual strength, and like Balhazzar read on the wall their doom. Therefore

Resolved, That virtue and integrity form the basis of every republic, and by such tests must wretches sink to utter infamy when they lose sight of their oaths, and their responsibilities.

Resolved, That the act on the part of the whigs in conspiring together to disorganize the State government, is in perfect harmony with the treasonable designs of the Hartford Convention Federalists, to secede and disorganize the government of the United States during the last war.

Resolved, That Jefferson's prediction has proved true, in warning the Democracy to be vigilant—anticipating that after public odium had frowned the Federal party down with contempt, that they would cast away a name that their treasonable acts had forever disgraced, and reorganize under another by the use of fraud and bribery of all descriptions, would again triumph so as to consummate their selfish and treasonable designs.

Resolved, That the election of 1840, was carried by the Federalists in consequence of professing to advocate democratic principles—as soon as they get possession of the Government the Federal mask is thrown off, and pledges of the most sacred kind are wantonly violated, and men who took a leading part in the "coon-skin and hard-cider campaign," who have been honest and consistent in the support of the same principles that they then supported—have been burnt in effigy and branded as traitors to their party, because they would not countenance principles that would directly tend to a dissolution of this Government; principles that have been condemned by a democratic people, ever since the ascendancy of Black-Cock-ade Federalism in 1793.

Resolved, That we approve of the course the Democratic party pursued in compelling the Banks to resume specie payments; time has proved it to be alike beneficial to the Banks as to the people. The effects of this measure has been to reduce exchange from 15 and 20 per cent, to a rate seldom greater than two per cent.

Resolved, That we approve generally the Bank bill adopted by the Democrats during the Legislative Session of last winter; That Stockholders should be individually liable for the issues of their paper, the same as other citizens are liable for the debts they contract.

Resolved, That the Constitution of the United States, guarantees to each State a republican form of Government, and that we believe a property restriction of the right of suffrage is anti-republican and in whatever State it may exist, we believe that the people have an indisputable right, to meet in convention for the purpose of abolishing it without any regard or consent of the existing government.

Resolved, That we most cordially approve of the course the Democratic Press have pursued, in sustaining the friends of free suffrage in Rhode Island, for the purpose of abolishing the old British Charter of Charles 2d, and substituting in its stead a constitution based upon the broad Democratic ground of universal suffrage.

Resolved, That the Federalists in opposing the right of suffrage in Rhode Island and thereby disfranchising one third of the population of that State, are only acting in accordance to the established principles of the Fathers of the Old Federal Party.

Resolved, That it is not to be wondered at, that the Federal mass meetings are tolerable well attended; because after drawing their funds from the Banks in 1840 to defray the expense of their coon-skin debsucheries, many of the Banks have since exploded, so that those who are largely indebted to them have been able to pay their debts to those institutions, at from 10 to 25 per cent, on the dollar, so that the large amounts made by the Federal speculators in this way, places them in a situation again to enter the political contest with large sums of money to defray their expenses, swindled out of the hard earnings of the people.

Resolved, That the course of the 41 Whig members of the Legislature of this State, in resigning their seats merely because they could not dictate to the Democratic majority, is revolutionary and disorganizing, and calls loudly for every true lover of his country to awake and gird on his armor and at the ballot box on the second Tuesday in October next, teach these conspirators that they were the servants of the people and not the tools of the Kelley faction.

Resolved, That we approve of a revenue Tariff sufficient to defray the expenses of Government economically administered, believing it to be all of the protection necessary to establish our Manufacturers upon a sound and permanent basis.

Resolved, That in the next political campaign, the sovereign people would properly rebuke their disorganizers in sending to the Halls of Legislation, some of our honest Canallers, and requesting that silk stocking gentry to draw their gloves and ply at the wheelbarrow without the prospect of pay, and they would then appreciate the present suffering condition of our honest hard-fisted Irish & Germans, who are toiling from morning to night, and calling for relief, but their cries are disregarded, and insult is added to suffering.

On motion and adopted, that Mr. Craig address the meeting. Mr. Craig in his remarks showed conclusively to any unprejudiced mind, that the apportionment bill was not the cause of the Whigs resigning their seats in the Legislature, but that their resignations had been prepared long before the apportionment bill had been introduced.

The following persons were elected delegates to attend the County Convention, J. W. Newburg, George W. Wasman, M. Colier, H. Torrey and Doct. F. D. McMeal.

On motion that the proceedings of this meeting be published in the Ohio Democrat and Holmes County Farmer; adopted.

On motion and adopted, that the thanks of this meeting be given to the speakers.

On motion and adopted that a vigilance committee of ten be appointed by the Chair for this Township, the Chair appointed the following persons to constitute said committee, Isaac Gibbs, Fintin, Jacob Murray Sen., Jeremiah Murray, John Shorman, Jacob Sprinkle, John Young, G. W. Wasman, H. Torrey and M. Colier.

On motion that the thanks of this meeting be given to the Democratic Band.

On motion that this meeting adjourn, adopted.

JOHN MOSLEY, Chairman.

H. TORREY, Sec'y.

DEMOCRATS OF TUSCARAWAS TO THE RESCUE!

The time has at length arrived, when the Democracy are called upon to come forward in their strength. In 1840, the revolutionary Whigs only dared to say, "We must carry our measures peacefully if we can;" during the present session of Congress, when Quincy Adams, the leader of Federalism dared to offer a petition for the dissolution of the Union; for the destruction of our free institutions—and on the 11th of the present month, the whigs of your State legislature abandoned their seats, nullified your State constitution, and your laws, and with Thomas Corwin, your Governor, at their head refused to abide by our sacred Constitution, and their oaths. A revolution has commenced, which must result in all the horrors of civil war, unless the Democracy armed with the principles of the fathers of our glorious Revolution, rise in their might to the rescue.

Then, fellow Democrats, come up one and all to the County convention on Saturday next, and as you love liberty and all the blessings of free government, pass sentence of condemnation on the perjured traitors who violated their oaths, and trampled in the dust your Constitution. Let none stay at home in this alarming crisis when TREASON and ANARCHY stalk naked through our State. On the energy and action of the Democracy in the coming contest, depends the fate of our civil institutions.

C. H. MITCHENER, Sec'y.

Messrs. MITCHENER & MATHEWS:

The 12th Section of the 1st article of the Constitution of the State of Ohio, provides that "when vacancies happen in either house, the Governor, or the person exercising the power of the governor, shall issue writs of Election to fill such vacancies."

"An act to Regulate Elections, passed February 18th, A. D. 1831.

Sec. 30 provides "That whenever a vacancy, shall happen in the office of Representative to Congress, or Senators or Representatives to the General Assembly, in any County or Counties in this State, entitled by law, to such Senator or Representatives, the Governor of the State, for the time being, shall upon satisfactory information thereof, issue a writ or writs of Election, &c." Again the Constitution of Ohio Article 2d sec. 7, it is made the duty of the Governor to "Take care that the Laws be faithfully Executed."

Now gentlemen our Governor takes an oath as well as other officers "To support the Constitution of the United States And of this State, and also an oath of office."

Why is it then that Tho. Corwin does not issue writs of Election to fill vacancies occasioned by the Resignation of the Whig Senators and Representatives at the late Extra Session? Is it necessary that an officer elected through frauds and perjury, should carry the vile and wicked designs of his party by the commission of similar crimes? By answering the above enquiries you will confer a favor upon a

SUBSCRIBER.

Congress had not adjourned at the latest date, though they expected to, soon. We stated this a month ago. Lord, how they love the eight dollars a day!

WHO WANTS A CHEAP PAPER?

Any Person wishing to take this paper until the election is over, can have it for 25 cents, in advance. Our subscribers in the different townships will please mention it to their neighbors. We give half as much more news every week, as any other paper ever printed in the county.

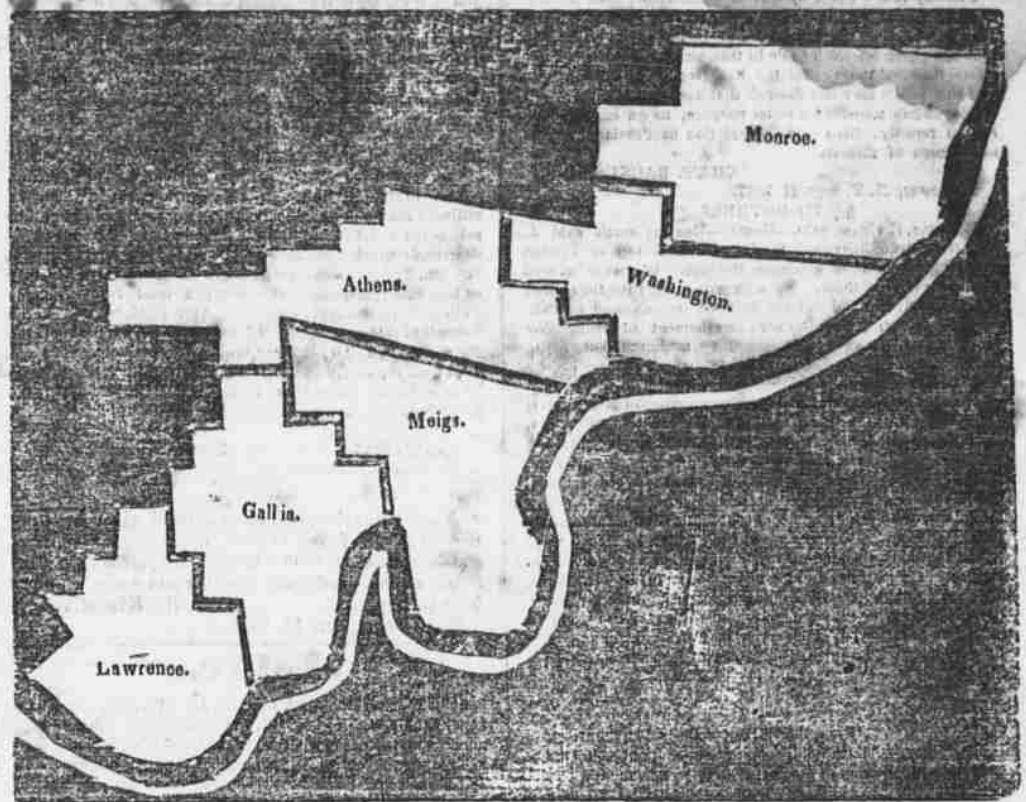

MARRIED, By Albert Bates, Esq. Mr. David Heron, of Wayne township, to Miss Barbary Showalter, of Sugar Creek township.

On the 30th ult by Rev. Mr. Greenwald, Mr. William Cummins, to Miss Almira Beck, of Goshen township.

FEDERAL FALSEHOODS AND HYPOCRISY EXPOSED—THE PERJURED TRAITORS SHOWN UP BY THEIR OWN VILLANY.

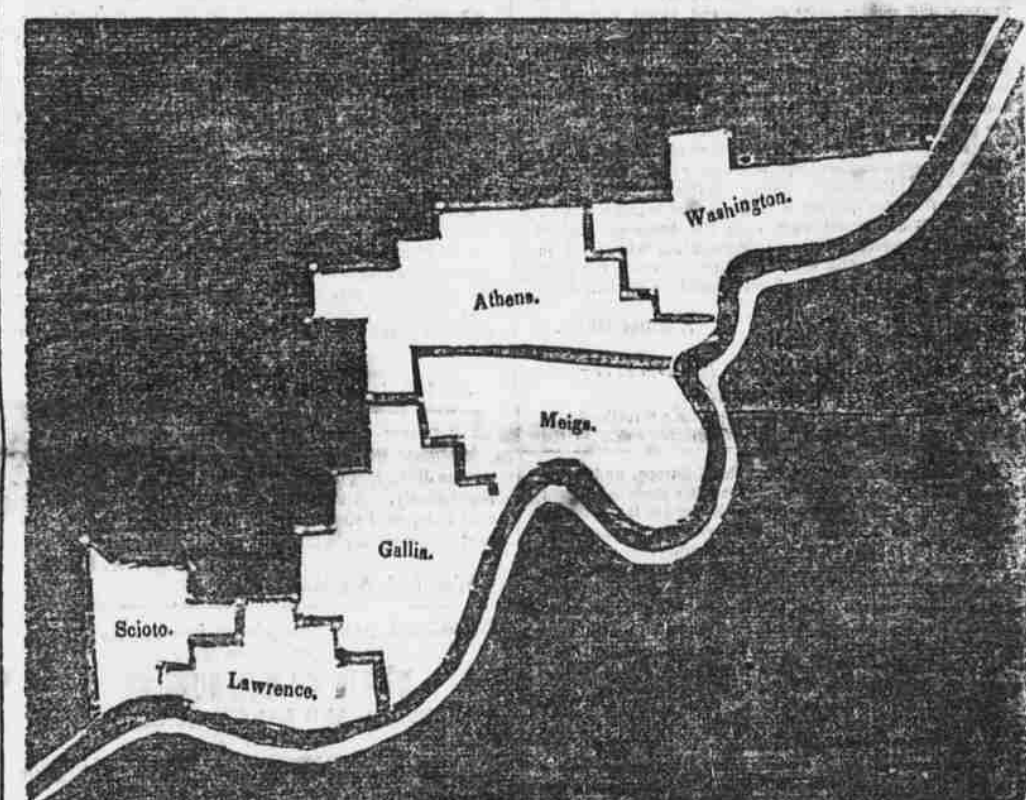

The only plea set up by the Whig conspirators for perjurying themselves, and breaking down the Legislature, is, that they were forced to do it to prevent the passage of a monstrous, wicked apportionment bill got up by the Democrats. With the view of humbuggery the people, we see their hirelings getting up pictures of the worst looking districts, and then arguing that the rest are all as bad. The last Advocate contains no less than four of these pictures. The most objectionable one they term the "Giraffe," the like of which say they, was never seen for wickedness, injustice and rascality. Now admitting for a moment that the democratic bill is all they call it, is that any justification for committing treason, when it is known that any unjust bill could be repealed by the next legislature? But waiving all this, we take them on their ground, and shall show their falsehoods and hypocrisy after committing perjury. To do this, we give three drawings. The first, is the whig district made by the whig Legislature 10 years ago, and which runs along the Ohio river 250 miles, and takes in the same counties that are in the Democratic bill of this year, with the exception of Monroe, which is in the whig bill, and Scioto, in its stead, in the democratic bill. Here it is from the map of Ohio.

WHIG DISTRICT OF 1832.

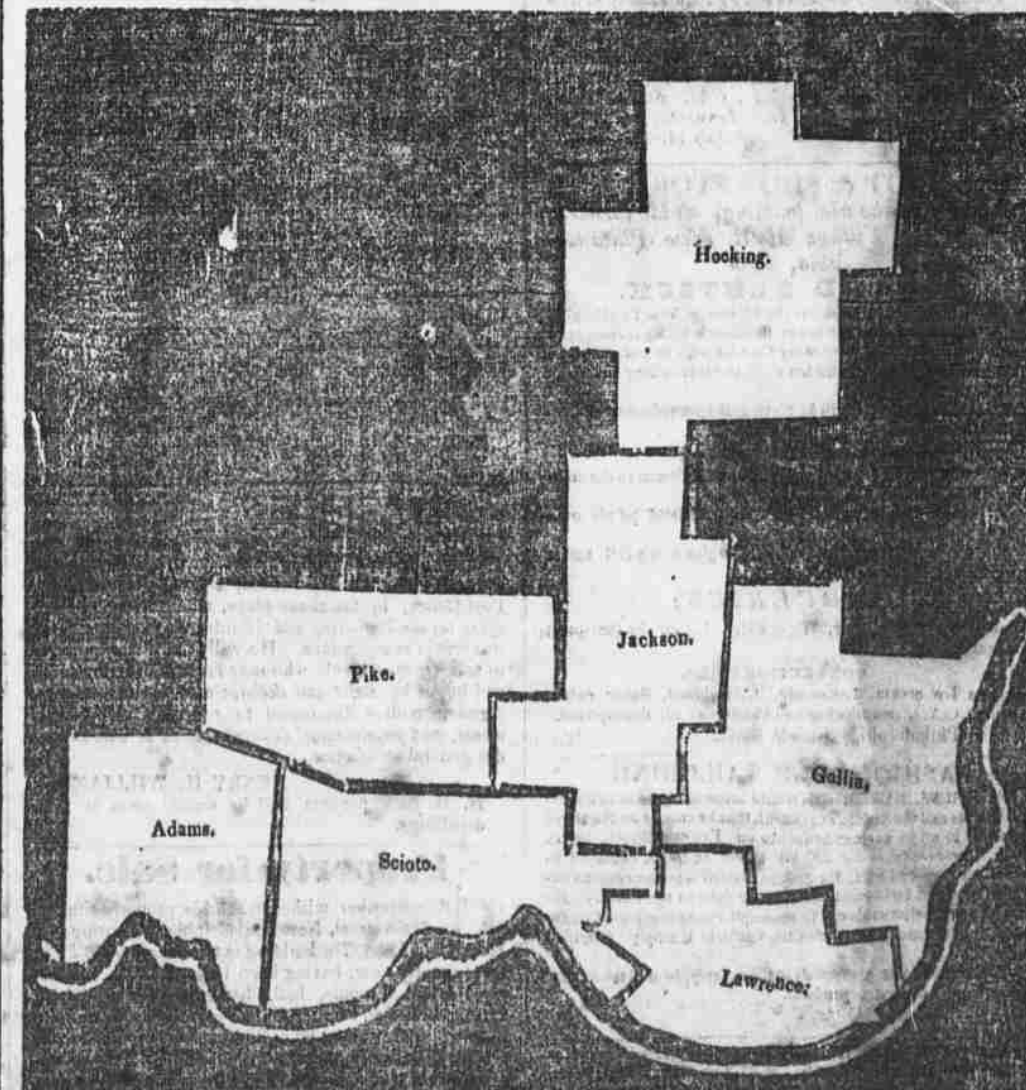

Here then we have the first "Giraffe" ever found in Ohio. But at that time nor never since, have the federal hypocrites ever found fault with its shape. No, not until the democrats came to make a district of the same counties in 1842, did they conjure up a "Giraffe" horrible to behold. That the public may compare them we give the form of the Democratic district, with Monroe taken off, and Scioto, put on. This is the sole alteration.

16th DISTRICT IN THE DEMOCRATIC BILL.

Let any man take the above districts and compare them with the map, that he may see which is most objectionable. Yet the district No. 16, is the most ill shape one in the democratic bill, and the one the traitors have pictured off, to electioneer with. From the way they pitch and rant, you would suppose them incapable of ever making another "Giraffe." Oh no, they appear honest, but let us see if the basest hypocrisy and fraud have not been committed by these men. At the Extra session, a whig bill was voted for by the whigs. It was got up by Barnett, & when he came to where the whig Giraffe was first found, instead of running up the Ohio river, it strikes out and swallows up Hocking county, which only touches with a narrow strip, thus passing entirely by Athens, and Ross, two counties which join the district completely. Here it is.

10th DISTRICT IN THE WHIG BILL OF 1842.

Can a more miserable looking monster be conjured up than this district? And yet it was made by the same base wretches who are charging the Democrats with the villany that they themselves committed, and making those charges the ground of defence for committing perjury and treason against the State Government. There are many things could be pointed out but it is not necessary. A discerning people by comparing the whig district with the Democratic district, can readily detect the falsehoods, fraud and hypocrisy of the Traitors, and their hirelings.
